

Let your poop flag fly.

Just like routine car maintenance, a septic system inspection now can save a lot of time, money and headache later.

Your septic system is a bigger part of your life than you might think. You owe it to yourself to get it inspected. Regular maintenance is a proven way to get long-term cost savings.

If a septic repair is needed, you don't have to go it alone. Financial assistance programs are available.

So, hire a certified inspector from our list. Learn how to inspect your system yourself at free Septic 101 and 201 classes. Share that you **#PoopSmart**. Help us prevent a Revenge of the Turds situation in Skagit County.
